

FOR IMMEDIATE RELEASE

## **NRX TO UNVEIL NEW FLEET MAINTENANCE SOLUTION AT SAP-CENTRIC EAM**

### **NRX Global Inc. and Vesta Partners, LLC Collaborate to Create New SAP Fleet Maintenance Solution**

**TORONTO, CANADA- March 23, 2010** – NRX Global Inc. will be attending SAP-Centric EAM alongside Vesta Partners, LLC in Tampa, Florida, March 28-31, 2010, to introduce the new NRX Fleet Maintenance Solution.

NRX's SAP Visual Information for Plants (VIP) solution is being enhanced to include best of breed Fleet Maintenance capabilities including support for VMRS codes and component level warranties. VIP's Fleet Maintenance capabilities will complement the product's proven capabilities to streamline, simplify, and enhance work management processes for SAP maintenance professionals.

"NRX saw that there was a market being underserved and jumped on the opportunity. With the vast capabilities of VIP and the possibility of enhancing these capabilities to support fleet maintenance, creating this solution was an obvious choice, as was teaming with Vesta Partners to take on this project," said Jeff Bonnell, Vice President of Services and Product Management.

VIP supports ease of integration of an array of items such as illustrated Parts Books, real-time data, and manuals, to support the Fleet Maintenance Business process. The solution will also provide a framework for improving efficiency and driving business process compliance.

"We are pleased to partner with NRX on this exciting new opportunity," said Kahn Ellis, Senior Partner and COO of Vesta. "The Fleet Maintenance solution will allow organizations to control and better manage their fleet assets over their life-cycle. The new NRX Fleet Maintenance solution is the only one of its kind and can have a tremendous impact on reducing maintenance costs for any fleet."

SAP-Centric EAM is the most in depth show for EAM best practices and strategies, covering the entire maintenance end-to-end business process. NRX and Vesta felt SAP-Centric EAM was the perfect place to showcase the new NRX Fleet Maintenance Solution, designed to help companies overcome the ever mounting pressures to reduce costs, increase efficiency and meet higher safety standards. For more information or to schedule a demo, please stop by Booths 13 and 14 or call +1 (416) 368-4567.

#### **About NRX**

NRX Global Inc. is the global market leader in Asset Information Management (AIM) software. Leading companies in asset intensive industries use NRX solutions to dramatically reduce the time and cost needed to achieve full production on complex capital projects. For critical assets that are in operation, NRX solutions enable clients to significantly increase asset productivity and materially reduce operating, safety, and compliance risk and costs over the operating life of the assets. For customers interested in learning more about NRX solutions please visit our website at [www.nrx.com](http://www.nrx.com) or contact us by email at [info@nrx.com](mailto:info@nrx.com).

## About Vesta

Vesta Partners, LLC is a professional services company with deep domain expertise in maintenance and reliability. As a SAP Services Partner, our approach combines industry best practices with practical technology solutions that provide our customers with a competitive edge. With offices located in the United States and Europe, we help our customers shift their maintenance operations from a necessary cost center to an enterprise improvement platform.
