

FOR IMMEDIATE RELEASE

## **NRX FURTHER EMBRACES OPEN STANDARDS WITH THE RELEASE OF NRX ASSET HUB™ 5.1**

**New Release Focuses on Enabling Data Interoperability and Simplifying Deployments of NRX Asset Hub™**

**TORONTO, CANADA – JUNE 29, 2009** - NRX Global Corp., the market leader in Asset Information Management solutions, unveiled new features and enhancements for NRX Asset Hub™.

Asset Information Management plays a critical role in strategic business initiatives such as Operational Readiness, Operational Excellence, and Financial Compliance. And, it plays an even more critical role in these challenging economic times.

“The Asset Hub solution helps capital-intensive industries address these significant information management challenges and improve a company’s bottom line.” says Brian Moore, Vice President of Business Development. “Many of the product enhancements focus on ease of implementation and usage, which is critical in today’s business world and complex technology landscape. Getting the right asset information to the right person, at the right time, to make the right decision just got even easier with this new release and will in return save money for our customers.”

This new release of NRX Asset Hub™ 5.1 contains many exciting new features including:

- Enhanced ISO 15926 compliance to improve data interoperability by leveraging the industry adopted open standard.
- Streamlined solution deployment, integration and configuration to shorten the implementation timeline
- Supported languages now include English, Spanish, German, Japanese, Chinese and Finnish to service the global demand for the solution
- Enhanced maintenance program functionality to allow leveraging maintenance procedures and plans across the whole enterprise

“We have taken a large step forward to further embrace open standards enabling efficient data interoperability”, says Dennis Wu, Vice President of Engineering at NRX. “This new release offers better integration between our solution with other asset lifecycle ecosystem partners and improve usability for asset-intensive customers worldwide”.

### **About NRX Asset Hub™**

NRX Asset Hub™ is purpose built to address asset information management challenges across the entire asset lifecycle. The solution combines data, document, and project management software and methodologies to enable asset owners and engineering companies to define their requirements; manage the data and document collection and transformation process; and easily deploy and sustain asset information.

## About NRX

NRX is the market leader in Asset Information Management (AIM) solutions. The NRX solution enables operational readiness for capital projects by reducing schedule and cost, asset data migration, supplier information management, and accelerates time to full production. For operating assets, the solution enables operational excellence through increases in safety and reliability, maintenance and MRO supply chain efficiency.
